

# GLOSTONE

World of Quartz

**GLOSTONE**  
world of quartz

# ABOUT US

**Glostone** specializes in manufacturing and supplying artificial quartz stone. We have a wealth of experience in the manufacturing of artificial stone, and we are committed to sustainable development to enhance the brand's position and reputation both domestically and internationally.

Glostone consistently satisfies the market's demands for both quality and quantity of output with a capacity of up to **800,000m<sup>2</sup>/year**. The quartz slabs from Glostone boldly make their mark in one of the world's most challenging markets, including those in the US, Canada, EU, Japan, UK, Australia, and UAE.

# BETTER LIVING STANDARD

*Furnishing life's quality*

Living space: a location to refuel, grow and cultivate each person's happiness. The first step toward success in life is to find a place you can call home.

The Glostone's designer team aims to create daily settings that are full of life and inspiration.

100+

Colors

Quartz surfaces from Glostone are widely used in various design styles and are customized to each customer's preferences and needs.

7 Mohs

Hardness

Created using modern technology and lines that combine natural quartz aggregates, our quartz stones are heat resistant, scratch resistant, and has an excellent bearing capacity.

90%

Natural quartz base

Every slab of Glostone artificial quartz has more than 90% of natural quartz inside, giving its rigidity even after prolonged use.

0 maintenance required

Waterproof surface

By using the vacuum pressing technology, Glostone's artificial quartz features an easily wipeable and effectively waterproofed surface.

VENETIAN

VENICE

BASIC COLOR

Glostone presented three collections where designs were inspired by nature and included every aspect of Earth into each solid stone fiber. Because of that, the artificial quartz stone slabs help improve the vivacity of each family space.

COLLECTION 01

# VENETIAN

*The Charm  
of nature*

Nature is a never-ending source of inspiration for our engineers. Strong horizontal and vertical veins in natural stone are beautifully captured in the Venetian series. Every piece of artificial quartz stone is like a gentle breeze, bringing cool energy into the living area.
